Overview

This book offers essential information on relations between adults and their parents. How well do the generations get along with one another? What kinds of support do adults provide to their parents, and how much do parents give to their adult children? How often does tension or conflict arise? What impact do education, finances, age, gender, migration and region have on intergenerational relationships? The study examines both current relationships with living parents and past ties to mothers and fathers who have passed away.

The topics include the various forms of intergenerational cohesion but also ambivalence, stress, quarrel and distance. They address the opportunities and needs of individuals and families as well as the conditions for intergenerational conflict and cohesion. What strengthens attachment and support between parents and their adult children, and what contributes to tension and conflict? The project investigates individual, family-related and contextual factors.

The empirical basis is SwissGen, a representative survey of intergenerational relations in Switzerland. Over 10,000 individuals from across Switzerland participated in writing or online. They represent more than 20,000 relationships between adult children and their parents. The information collected allows for a comprehensive documentation and analysis of intergenerational relations at large and those of various groups of people. The project includes the collection of comprehensive and representative data, the documentation and analysis of intergenerational relations now and over time, the identification of similarities and differences as well as empirically based conclusions for individuals, families and society at large.

This book forms a tandem with the analysis volume, which examines central generational issues in depth (“Generationen zwischen Konflikt und Zusammenhalt” / “Generations between Conflict and Cohesion”). The analysis volume offers key findings, whereas the volume at hand documents all questions and answers of the survey. This includes the numbers on which the figures in the analysis volume are based. Moreover, the data volume is a general reference book for all SwissGen results and provides basic information on the research project.

Accordingly, the book consists of three parts. First, it contains general information on the survey, the respondents and the data. Second, it docu-

ments the questionnaires, which are available in German, French, Italian and English. Third, it presents all answers of the respondents in corresponding tables. These tables provide general results and also offer more specific information for various groups of people in regard to education, finances, age, gender, migration and region.

Of course, such a large research project is unthinkable without great participation and support. First of all, we would like to thank the more than ten thousand women and men who participated in the survey and answered our many questions: Thank you very much, indeed! Valuable advice in planning, preparing and conducting the study came from Vern Bengtson, Ariane Bertogg, Guy Bodenmann, Peter Farago, Corinne Igel, Martin Kohli, Oliver Lipps, Res Marti, Julia Schroedter and Seymour Spilerman. Most valuable and extensive support was provided by Robin Benz, Franziska Dörig, Christoph Freymond, Sandra Gilgen, Patrick Grunder, Corinne Krohn, Christian Panchard, Lukas Posselt, Jeannette von Rotz, Peter Rusterholz, Stefan Sacchi, Christiane Schlotte, Diana Turrin and Gilles Wasser. Translations of texts or questionnaires were provided by Isabelle Bruhin, Cinzia Corda, Stephan Elkins, Eric J. Iannelli, John Koster, Marielle Larré and Julia Schaub.

Furthermore, we are very grateful for funding from the Swiss National Science Foundation (SNSF) and the University of Zurich (UZH), the most valuable help and provision of respondents' addresses by the Swiss Federal Statistical Office (FSO) as well as the always pleasant and professional cooperation with Seismo Press. The very supportive working conditions at the University of Zurich's Department of Sociology are also greatly acknowledged.

Project

Topics

The SwissGen project sheds light on intergenerational relations between adults and their parents. The focus is on tension and conflict on the one hand and cohesion and solidarity on the other. Furthermore, SwissGen provides insights into factors that shape and influence intergenerational relations. What promotes or hinders intergenerational conflict and cohesion? How important is the influence of various individual, family and societal factors?

To provide a detailed description and comprehensive examination of intergenerational relationships between adults and their mothers and fathers, the questionnaires address a broad variety of topics. Among others, these topics include many forms of conflict and cohesion as well as various conditions for tension and solidarity.

Conflict

- › Ambivalence: mixed feelings, changing emotions, transfer and conflict, closeness and conflict
- › Stress: worries, expectations, overwhelmed, burdens, interference, criticism
- › Quarrel: disagreement, tension, quarrel, conflict
- › Distance: speechlessness, lack of understanding, indifference, estrangement

Cohesion

- › Attachment: closeness, contact, importance, understanding, appreciation, interest, seriousness, respect
- › Space: coresidence, household members, move-out date, residential distance
- › Time: received or given help, received or given care, emotional support, help with childcare, potential care, obligations
- › Money: received or given current transfers, potential financial support, received or expected large gifts, received or expected inheritances

Factors

- › Opportunities: education, finances, residential distance
- › Needs: age, employment, health, financial transfers, assets, property
- › Family: gender relations, partnership of parents, childhood (separation, upbringing, tension, conflict, reliability, rules, punishment, love, pressure, praise), partnership of child, (grand)children, siblings
- › Contexts: migration, region, country of birth, citizenship, canton

On this basis, SwissGen allows for a wide range of descriptions and analyses. This includes representative answers to important questions and, of course, manifold in-depth analyses of intergenerational relationships in their various forms, their determinants and their consequences.

Design

Questionnaires

For this research project, new questionnaires were developed and rigorously tested through extensive preliminary work (see below). The SwissGen survey consists of five parts: a personal questionnaire (1), a questionnaire about the relationship with the living (2A) or deceased mother (2B) and a questionnaire about the relationship with the living (3A) or deceased father (3B). Every respondent was asked to fill out the personal questionnaire as well as one questionnaire each in regard to her or his mother and father. In general, the questions relate to their biological parents. Thus, the respondents did not have to choose among biological, adopted, foster or stepparents with regard to the mother and father questionnaire, and the dataset contains relevant information on the biological parents for all respondents. Nevertheless, they were also asked whether their parents separated, whether one or both of them passed away and whether the respondents grew up with adoptive parents, foster parents or stepparents. This information makes it possible to determine whether any of these conditions influence the relationship to the biological parent.

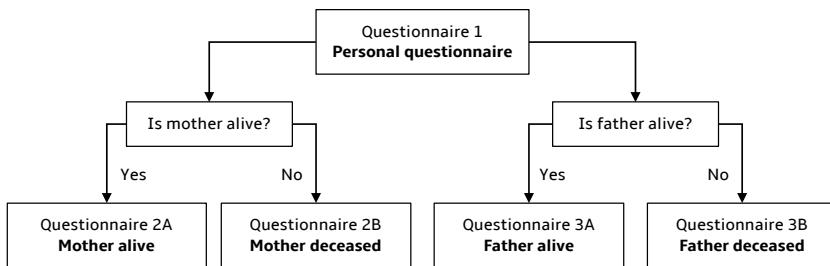

The personal questionnaire (1) consists of 32 main questions and five sub-questions that cover general information about the respondent. Besides

socio-demographics, household finances, health and general life satisfaction, a series of questions addresses family and household structures. In addition, the questionnaire gathers information about the respondent's life circumstances while growing up: for instance, whether they grew up with both biological parents and whether they experienced conflicts between them.

Each parental questionnaire (2A, 2B, 3A, 3B) includes 57 main questions and 15 sub-questions. In addition to the parents' socio-demographic and socio-economic background, it collects information about their health, partnership status and the respondent's connections with them. It then moves on to inquire about a variety of situations that define various aspects of intergenerational relationships. Further questions refer to the respondent's childhood and youth, and a final series of questions asks about intergenerational solidarity in the form of time and monetary transfers.

All in all, the five questionnaires contain a total of 325 questions, and each respondent could reply to 181 questions across three questionnaires, two of which were chosen depending on whether or not the parents were still alive. The survey questions can be found in the second part of this book.

Figure 1: Questionnaires

Source: SwissGen.

Figure 1 offers an overview of the five parts of the survey. At the end of the personal questionnaire, two separate questions ask whether the biological mother and father are alive, deceased or unknown. These questions act as filter questions that guide respondents through the questionnaires about their relationships with their biological mother and father: If the biological mother is alive at the time of the survey, respondents continue with Questionnaire 2A,

whereas those whose biological mother is deceased continue with Questionnaire 2B. Then respondents proceed with Questionnaire 3A if their biological father is alive and Questionnaire 3B if he is deceased. Respondents are asked not to answer the questionnaire about their biological parent if the respective parent is unknown. In the online survey, the routing between questionnaires was done automatically. Unless the respondent did not know his or her biological mother, the web-based survey was programmed to continue with the respective questionnaire about the relationship with the mother after the personal questionnaire was completed. These questions were followed by the corresponding questions in regard to the biological father.

Table 1 provides a summary of the number of respondents across the five questionnaires. 10,623 people answered the personal questions, which by definition corresponds to 100 per cent of the survey participants. At the time of the survey, the mothers of 6,453 respondents were alive, while those of 4,011 respondents had already passed away. Overall, the results show that more mothers were still alive than fathers. This is due to the longer lifespan of women, but also because, on average, mothers are younger than fathers when their children are born.

Table 1: Respondents

| | Respondents | Per cent |
|----------------------|--------------------|-----------------|
| Person (Q. 1) | 10,623 | 100.0 |
| Mother | 10,492 | 100.0 |
| Alive (Q. 2A) | 6,453 | 61.5 |
| Deceased (Q. 2B) | 4,011 | 38.2 |
| Unknown | 28 | 0.3 |
| Father | 10,374 | 100.0 |
| Alive (Q. 3A) | 5,024 | 48.4 |
| Deceased (Q. 3B) | 5,210 | 50.2 |
| Unknown | 140 | 1.4 |

Source: SwissGen. "Q.": Questionnaire (see Figure 1).

With the exception of the parent-specific wording of questions (i.e., "Mother" or "Father" and corresponding grammatical gender), Questionnaires 2A and

3A are identical; the same applies to Questionnaires 2B and 3B. Questionnaires 2A/3A and 2B/3B also cover the same questions with only a few exceptions and mainly differ in terms of wording and the underlying time frame. The questions about living mothers and fathers relate to the current situation, while those asking about deceased parents refer to the last twelve months before the parent's death. Thus, the questions in Questionnaires 2A and 3A generally employ present tense while Questionnaires 2B and 3B use past tense or phrases such as "... during the last 12 months before her passing".

Nevertheless, there are three notable differences between the questionnaires about parents that are still alive and those who have already passed away: 1) The year of death is only requested in regard to deceased parents. 2) While respondents with living parents are asked about the prospect of receiving an inheritance from them, respondents with deceased parents are asked whether they have actually received such an inheritance. 3) Respondents are only asked whether they expect a large gift from a parent if that parent is still alive.

Languages

Since Switzerland is a multilingual country with three main language regions, namely, German, French and Italian Switzerland, the questionnaires were made available in German, French and Italian. Additionally, the questions were translated into English, partly to reach English-speaking respondents, and partly to make the SwissGen questions available to the English-speaking scientific community. However, the English survey was only available to respondents taking part online. These respondents could choose the language before starting and during the survey. The paper-and-pencil questionnaires were sent in the respondents' correspondence language provided by the Swiss Federal Statistical Office (see below).

Modes

SwissGen participants could either fill in paper-and-pencil questionnaires or complete a web-based version of the survey. The benefit of this hybrid approach is that it balances out the respective advantages and disadvantages of the two survey modes. The goal was to motivate as many people as possible to answer the questions, including younger and older participants. Anyone who wanted to reply online without filling out paper forms and returning them by

mail could do so, while those who preferred to fill out paper questionnaires could do so, too. Both survey modes were self-administered.

The online survey was programmed using LimeSurvey and was accessible through a link on the invitation letter, a link on the front page of the paper-and-pencil questionnaires and via the SwissGen project website. Respondents taking part in the web-based survey could either log in with a token – which was noted on the invitation letter as well as on the paper-and-pencil questionnaires – or access a personalised survey directly via a QR code printed on the paper-and-pencil questionnaires. To ensure general accessibility, LimeSurvey contains a responsive design that adapts to different devices and browsers. The research group successfully tested several scenarios before starting the field-work and did not receive any notifications concerning compatibility issues or web browser display problems during the survey.

Table 2: Languages

| | Offline | | Online | | All | |
|------------|----------------|--------------|---------------|--------------|---------------|--------------|
| | Cases | Per cent | Cases | Per cent | Cases | Per cent |
| German | 3,822 | 71.8 | 3,971 | 75.0 | 7,793 | 73.4 |
| French | 1,168 | 21.9 | 942 | 17.8 | 2,110 | 19.9 |
| Italian | 336 | 6.3 | 262 | 4.9 | 598 | 5.6 |
| English | / | / | 122 | 2.3 | 122 | 1.1 |
| All | 5,326 | 100.0 | 5,297 | 100.0 | 10,623 | 100.0 |

Source: SwissGen.

Table 2 documents the number of completed questionnaires by survey mode and language. The total shows that half of the respondents opted for each of the two survey modes. This result indicates how important it is in current surveys not to rely solely on an online mode. The table also shows that most of the respondents have a German-speaking background, followed by the French-speaking and, finally, the Italian-speaking participants. The English version, available in the online mode, was chosen by a particularly small number of people. Further information on response rates by survey mode can be found in Table 4. A breakdown of the two survey modes according to education, finances, age, gender, migration and region is offered in Table 5.

Survey

Sampling

SwissGen is a representative study of adults of all ages in Switzerland. The survey is neither restricted to young or old adults, nor to Swiss citizens. Also, the comparatively smaller part of Italian Switzerland is included as well, and so is each of the 26 Swiss cantons. The goal was to gain information on inter-generational relations between adults of all ages including those from different regions and countries of origin. By doing so, SwissGen exceeds other studies that focus on specific age groups, specific regions and/or specific population groups (e.g., excluding migrants).

The target population consists of all individuals of at least 18 years of age at the time of the sampling (born in 2000 or earlier) who have their regular domicile in Switzerland. A person was not considered if she or he was hospitalised, incarcerated, under legal guardianship or out of the country during the entire survey period. These individuals were excluded from the net sample if the research group received explicit notice after the invitation to participate from the individual in question, from family members or from public authorities.

The sample is a disproportionate stratified random sample of individuals residing in Switzerland. Sampling was conducted by the Swiss Federal Statistical Office (FSO). The FSO is Switzerland's national competence centre for official statistics and – among other tasks – administers the national register of residents. For the FSO to provide the addresses, several conditions had to be met, which included the particular importance of the study for Switzerland as well as the approval of an application to the Swiss National Science Foundation.

The goal was to reach a SwissGen sample of around 10,000 respondents in order to have enough cases for representative descriptions and thorough analyses of diverse groups of people. Due to an estimated response rate of 40 per cent, the FSO was asked to provide a total sample of around 25,000 individuals. The sample was stratified by canton to achieve an adequate representation of each canton and to provide a sound empirical basis for comparisons of cantons and regions. To meet these criteria, the FSO drew 24,904 addresses of individuals in the target population from the cantonal and communal registers of residents. A further 3,557 addresses could have been activated from a reserve sample in order to achieve the desired net sample size if the responses

Table 3: Sampling

| Canton | Target sample | Actual sample | Difference |
|------------------------|---------------|---------------|--------------|
| Zurich | 675 | 761 | + 86 |
| Bern | 550 | 550 | 0 |
| Lucerne | 400 | 446 | + 46 |
| Uri | 310 | 329 | + 19 |

| Valais | 380 | 390 | + 10 |
| Neuchâtel | 340 | 380 | + 40 |
| Geneva | 420 | 365 | - 55 |
| Jura | 320 | 356 | + 36 |
| All | 10,000 | 10,623 | + 623 |

Source: SwissGen.

from the first fieldwork phase had indicated a lower than expected response rate. However, this was not necessary (see below).

Table 3 shows the targeted and actual net sample for each Swiss canton as well as the corresponding difference. For each canton, except for Ticino, the targeted net sample was fixed to 300 individuals plus 0.3‰ of the canton's

population size. The targeted net sample for Ticino was fixed to 500 individuals to ensure an adequate representation of the Italian-speaking population. The actual net sample reached or even exceeded the target mark in 21 of the 26 cantons and was only slightly below the expectations in five cantons, namely, Solothurn, Basel-Stadt, Basel-Landschaft, Vaud and Geneva. In view of the overall actual net sample of 10,623 respondents, the additional reserve sample was not needed.

Testing

To ensure the quality of the questionnaires and the proper functioning of the software, several pretests were conducted before the actual SwissGen survey took place. In spring 2018, students from a methods lecture at the University of Zurich's Department of Sociology were invited to the first pretest, which led to a few minor changes in wording, layout and items. The main pretest took place in June and July 2018. These addresses came from a commercial address provider. A total of 1,000 individuals – 498 German-speaking, 302 French-speaking and 200 Italian-speaking – were invited to participate. At the beginning of June 2018, an initial invitation letter including only the URL as well as a QR code for the web-based questionnaire was sent to these individuals. Three weeks later, a second invitation letter was sent out along with the paper-and-pencil questionnaires as well as a prepaid return envelope (the printed postal prepayment impression “P.P.” [“port payé”] replaced the postage stamp and participants could post the complete questionnaires without additional costs).

While 45 individuals could not be contacted (e.g., item refused, uncollected or undeliverable), a total of 277 questionnaires – 126 web-based and 151 paper-and-pencil – were completed. There was no indication of any malfunctioning of the optical mark recognition (OMR) software that was used to process the paper-and-pencil questionnaires. Furthermore, both pretests clearly showed that the questionnaires worked very well, requiring only minor changes in answer categories and question wording.

Collecting

The main data collection of SwissGen was carried out by the research group from September 2018 to February 2019. The goal was to receive valid answers

from as many respondents as possible; it was thus important to provide enough time for responses and reminder letters.

All in all, the respondents were approached three times: first with a letter but no paper-and-pencil questionnaires and then via two consecutive letters with the five printed questionnaires enclosed, either in German, French or Italian. The letters and paper questionnaires were copied, bagged, stamped (PP franking) and sent out by the printery of the University of Zurich. Additionally, information about the survey was published on the SwissGen website in German, French, Italian and English (www.suz.uzh.ch/swissgen). This website offered further information regarding the goals of the project, data privacy and anonymity, the research team and FAQs (Who was selected for the survey? Who are we? Who is supporting the research project? What happens to the data? Where will the results be published?). Those invited also had the opportunity to contact us with any questions via a telephone number and email address specially set up for the study.

The first letter was sent out to each of the 24,904 individuals in the week of September 3, 2018 (calendar week 36). Five weeks later, in the week of October 8, 2018 (CW 41), a second invitation letter and the paper-and-pencil questionnaires were sent to 21,503 individuals who had not yet participated in the online survey. The third and final letter was sent out another six weeks later, that is, in the week of November 19, 2018 (CW 47), to those 16,134 individuals who had not participated since the previous invitation. This letter again contained the paper-and-pencil questionnaires in the corresponding language.

Furthermore, a postage-paid and addressed return envelope for the paper-and-pencil questionnaires was enclosed with the second and third invitation letters. With these invitation letters, respondents could still participate in the online survey via their personalised URL or QR code. All completed questionnaires received by or on the cut-off date of February 28, 2019, were considered for the study.

The first letter consisted of a single page. It contained the letterhead of the University of Zurich, Department of Sociology, including the name and address of the principal investigator. The name and address of the recipient were included in the letter, as well as the date and a personal salutation. The letter was written in the communication language registered by the FSO for the respective recipient, either in German, French or Italian. In 98 per cent of cases (24,467 people), this language corresponded to the official language

spoken in the respective district. Only for two per cent (437 people) had the FSO registered a different national language than that of the district in which they lived. While all 105 people living in a Romansh district were contacted in German, different national languages were used for 188 invitees living in German-speaking districts, for 95 living in French-speaking districts and for 49 in Italian-speaking districts.

The first letter read as follows:

Dear [Ms/Mr] [Surname],

We are a research group at the University of Zurich that is studying inter-generational topics. The goal is to examine generations in Switzerland in more detail from a scientific perspective and with a focus on relationships with living or deceased parents. The research project is supported by the Swiss National Science Foundation (SNSF), the Federal Statistical Office (FSO) and the University of Zurich.

[Ms/Mr] [Surname], your address was drawn at random from the Federal Statistical Office's (FSO) Random Sample Register. The legal basis for this is section 13c(2) of the Ordinance on the Collection of Statistical Data (SR 431.012.1). To be able to draw conclusions that are representative of Switzerland, it is particularly important that all those who are contacted take part in the survey. Completing the questionnaire will only take about 20 minutes (and it is available in German, French, Italian and English). Of course, all information will be treated completely anonymously.

Through your participation you will make an important contribution to understanding and supporting intergenerational relationships in Switzerland. For more information on the project, you may visit www.swissgen.uzh.ch.

Thereafter, the letter contained a direct link to the online survey, a QR code and the personal token. The letter concluded with a thank you and the principal investigator's signature.

The second letter added the following first sentence and another paragraph: "Some time ago, we sent you an invitation to participate in our research project. (...) If you have already taken part, we would like to thank

you profoundly for your valuable cooperation. If you have not yet completed the questionnaire, you can still do so via the following link and token.”

The third letter just had a different introduction, namely: “We have already invited you to participate in our research project. Since your participation is very important to us, we are attempting to contact you one final time. (...).”

The second and third letters again offered a direct link to the survey, a QR code and the personal token. However, these letters also contained a large arrow on the first page that led to further information on the second page.

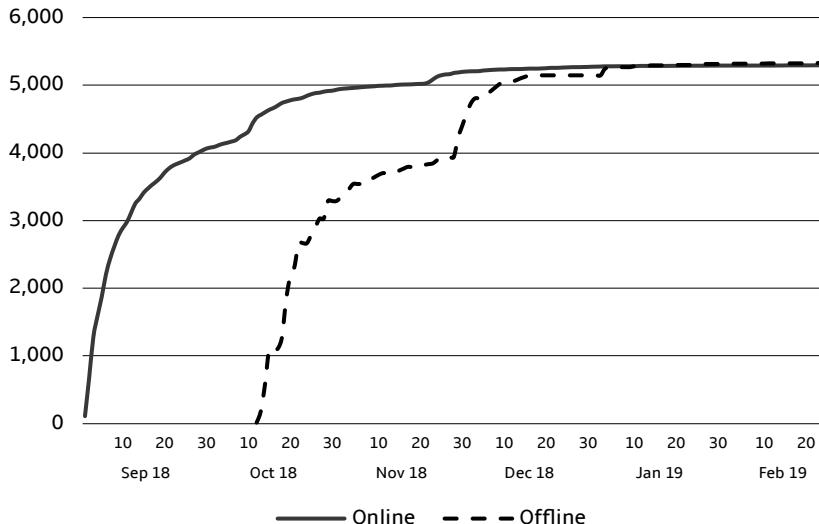

On the second page, it was first stated that the respondents could alternatively use the enclosed printed questionnaires and a few instructions were given. Respondents were asked to start with the personal questionnaire and then to fill out one of the two questionnaires (2A or 2B) about their biological mother, depending on whether she was alive or had already passed away, followed by one of the two questionnaires (3A or 3B) about their biological father, depending on whether he was alive or had already passed away.

Further instructions asked the respondent to use a black or dark blue pencil or pen, check the boxes that corresponded to the appropriate answer and explained what to do if the respondent wanted to change an answer or did not have any information to fill in. There were also short explanations of symbols used in the questionnaires, such as a writing or a pointing hand. Finally, the following request was made: “Thereafter, please send all five questionnaires back to us in the enclosed postage-paid return envelope.” Again, these letters concluded with a thank you and the principal investigator’s signature.

Responding

Figure 2 documents the date of the responses received by survey mode. The months and days are plotted on the x-axis, the number of completed or returned questionnaires on the y-axis. The solid curve on the left shows the date of participation of respondents answering the online questionnaire. The date of arrival of the returned paper-and-pencil questionnaires is presented in the dashed curve on the right. It shows the return of the first questionnaires shortly after the second letter – as well as a further increase in returns after the third letter. Only a few respondents submitted their answers after the end of 2018.

Filling in the online questionnaire lasted 28:05 minutes on average, with a median of 22:25 minutes (interruptions cannot be ruled out). This time span is not too far off the 20 minutes specified in the letters.

Figure 2: Responses

Source: SwissGen.

Table 4 documents the response rates for the total sample and the three language regions. The information regarding each invitee's language region was obtained from address data retrieved from FSO's register data and does not include the rarely spoken Romansh as a separate category. The classification into three language regions – German, French, Italian – is based on the most spoken official language in each district. Out of the 24,904 individuals of the gross sample delivered by the Federal Statistical Office, 583 (2.3 per cent) could not be contacted. On the one hand, this was the case if the mail delivery was refused or the mail uncollected or undeliverable. On the other hand, this also applied if invitees were not able to participate for being hospitalised, incarcerated or even deceased. Respondents who at some point explicitly stated (e.g., via email or telephone) that they refused to participate in the survey were not contacted again, either. The same applies to a few cases in which representatives drew attention to circumstances that precluded an invitee's participation (e.g., dementia). However, these 445 individuals (1.8 per cent) are considered in the net sample when calculating the response rate. This results in a net sample of 24,321 individuals.

Table 4: Response rates

| Region | Gross sample | Net sample | Respondents | Response rate |
|---------------|---------------------|-------------------|--------------------|----------------------|
| German | 18,255 | 17,878 | 7,932 | 44.4% |
| French | 5,395 | 5,221 | 2,132 | 40.8% |
| Italian | 1,254 | 1,222 | 559 | 45.7% |
| All | 24,904 | 24,321 | 10,623 | 43.7% |

Source: SwissGen.

The total response rate is 43.7 per cent, which can be attributed to the various efforts to motivate as many sampled individuals as possible to participate in the survey (e.g., two alternative survey modes, three consecutive letters, four language options, references to relevant institutions, additional information on the website, short questionnaires). Table 4 also shows that the response rates for the three Swiss regions do not differ very much. Nevertheless, the response rates for Italian and German Switzerland are somewhat higher than for the French-speaking part. Such contextual differences have been considered and balanced by the weighting process (see below).

Data

Correcting

The data set of the SwissGen survey has been thoroughly checked and corrected where necessary. All returned paper-and-pencil questionnaires were scanned and securely stored immediately after arrival. They were processed using the optical mark recognition software ‘Remark Office OMR’ (version 10). While the software recorded information from choice and scale questions automatically, respondents’ handwritten answers – such as dates or fill-in answers – were entered manually in the data frame. While using the optical mark recognition software, the research group visually inspected all responses in order to minimise the risk of incorrect assignments by the software. If answers were ambiguous – for example, when boxes were not ticked

correctly, when multiple boxes were ticked in single-choice questions or when the respondent's handwriting could not be deciphered – they were manually defined as missing values. No other measures were taken to ensure consistency while processing the paper-and-pencil questionnaires with the software.

During data cleansing, the following consistency checks were conducted:

- › First, the filters used in the questionnaires were checked. Especially in the paper-and-pencil questionnaires, some filter questions might have been overlooked by the respondents – for example, in the questions asking about certain amounts of money. Missing information on binary filter questions were therefore corrected in accordance with the answer to the follow-up question.
- › Second, year dates as well as workloads in the paper-and-pencil questionnaires were restricted to the valid range of values in the web-based questionnaire. For example, workloads of more than 150 per cent were recoded to the category “150 and more”. In addition, any year dates that exceeded the valid range of values used in the web-based questionnaire were recoded as missing values. This modification applied, for example, to a year of birth before 1850 and after 2000.
- › Third, a multitude of scenarios was checked in which the respondents' answers could be implausible or contradictory to other answers given in the questionnaires. Inconsistent information from the paper-and-pencil questionnaires was compared with the original questionnaires, and answers were changed manually if read incorrectly by the optical mark recognition software. On rare occasions (see below) where the inconsistency or implausibility of answers could not be resolved, answers were recoded as missing values. In cases where severe inconsistencies unfolded through a combination of different variables, all affected variables were recoded as missing values. All in all, only 746 of over 1,600,000 individual answers seemed to be implausible or inconsistent with other information and were thus treated as not valid or suspected wrong under the following conditions:
 - › Implausible or inconsistent year of birth, death, migration to Switzerland, end of coresidence or separation of parents (e.g., year of birth later than year of migration to Switzerland)
 - › Inconsistencies of family and household structures (e.g., living in the same household as parents who were reported to be deceased)

- › Implausible and inconsistent information on employment status (e.g., full-time workload but also unemployed)
- › Implausible distances between the respondent's and the living parents' domicile (e.g., distance of "500 kilometres or more" although the parent lives in Switzerland as well)
- › Specified country is not clearly identifiable (e.g., "Yugoslavia" is specified as birth country in the paper-and-pencil questionnaire)

Nevertheless, all substantive variables obtained from the questionnaires were also included in the data file in raw form. These variables are denoted with the suffix `_raw`.

Weighting

SwissGen provides valid information on the adult population living in Switzerland. Making general statements about the population with a random sample usually requires weighting. For empirical findings to be unbiased, the sample of the survey must either resemble the general population or be adjusted – that is, weighted – to do so. The SwissGen weights have been calculated and calibrated by Stefan Sacchi of CUE Sozialforschung, Zurich. Two kinds of weights are used to correct for potential differences: design weights and non-response weights.

Design weights correct for the disproportional stratified sample design. The populations of Swiss cantons vary in size from less than 20,000 in Appenzell Innerrhoden to over one million in Zurich and Bern. SwissGen uses a disproportional sample design stratified by canton to realise sufficient sample sizes in each canton, for instance, for comparisons between cantons. In this sample design, the probability of selection differs between cantons. Individuals from smaller cantons had an above average, those from larger cantons a below average probability to receive the SwissGen questionnaires and, therefore, to participate in the survey. Hence, respondents from smaller cantons are overrepresented and those from larger cantons are underrepresented in the SwissGen sample. To address this, SwissGen offers design weights that correct for different probabilities of selection and thereby simulate a representative sample on the national level.

Furthermore, design weights, combined with non-response weights, correct for the so-called non-response bias. The willingness to complete question-

naires may depend on individual characteristics and contexts. Participation rates in SwissGen vary by age, gender, household size, civil status, nationality and country of birth as well as by canton and degree of urbanisation. For example, migrants and those born in Switzerland without Swiss nationality at the time of the survey have lower participation rates, and their share in SwissGen is therefore lower than in the overall population. Design non-response weights are used accordingly to correct for both the disproportional sampling and the non-response bias. They adjust the SwissGen sample to resemble the overall population by using reference populations from the FSO and from the Swiss Labour Force Survey (SLFS) between the third quarter of 2017 and the fourth quarter of 2018. The documentation “SwissGen – Generationenbeziehungen in der Schweiz. Dokumentation der Stichprobengewichte” by Stefan Sacchi (November 2019) provides a detailed description of the weighting procedure as well as recommendations on how to use the design and non-response weights for statistical analyses.

Cases

The three tables below show basic numbers of cases and percentages. They differentiate between offline and online responses, document persons and parents, show cases and percentages for living and deceased parents and further differentiate between education, finances, age, gender, migration and region. Information on these variables can be found in the introduction to the Tables part of this book and in the Appendix of the analysis volume.

Offline – online

Table 2 has already shown that the number of participants who completed the questionnaire online roughly equals the number of people who chose to do so using paper and pencil. Table 5 now offers further information on the respective respondents. Who is more inclined to answer questions via a paper-and-pencil questionnaire, and who is more likely to use digital means?

The table reveals large differences in the usage of the two survey modes and confirms the advantages of a hybrid strategy combining digital with

postal responses. Thus, relying on an online-only version can easily lead to an over- or underrepresentation of certain population groups.

Almost one in five respondents who opted for the paper-and-pencil questionnaires have a low level of education – among online respondents it is only one in ten. Conversely, three out of ten who responded offline have a high level of education, whereas the highly educated constitute almost half of the online response group. In general, higher education leads to more digital responses. Similarly, financially better-off respondents were more likely to choose the web-based questionnaire.

As expected, age is of particular importance. Four out of ten offline respondents are at least 60 years old – compared to only one in four among those who responded online. Conversely, younger people are overrepresented in the digital survey. But there are also many younger people who filled out the paper-and-pencil questionnaires and many older people who answered online.

In contrast, gender differences are relatively small. There are no particular differences among online respondents, but there are more women than men among those who responded offline, which might reflect the higher proportion of older women.

Migration background does not play a major role. The proportions of first- and second-generation migrants and people without a migration background do not differ very much between the two survey modes. Nevertheless, among offline respondents we find a somewhat higher proportion of those born outside of Switzerland (1st generation) and a lower share of those who were born in Switzerland but had at least one parent who was born elsewhere (2nd generation).

Furthermore, the table reveals some smaller differences among the regions. The share of online respondents is nearly five per cent lower in the German-speaking part of Switzerland. On the other hand, slightly more people answered online in French and Italian Switzerland.

All in all, differences between offline and online respondents are much more pronounced in regard to education, finances and age, while gender, migration and region are less relevant. The online questionnaire was much more frequently used by younger and highly educated respondents who are financially well-off, whereas older respondents with low or medium education and financial difficulties were more likely to use the paper-and-pencil questionnaires.

Table 5: Offline – online

| All | 10,623 | 100.0 | 20,866 | 100.0 |

Source: SwissGen. Cases unweighted, per cent weighted.

of the 10,623 SwissGen participants in regard to education, finances, age, gender, migration and region (the operationalisations of these variables can be found in the introduction to the Tables part of this book and in the Appendix of the analysis volume; see Overview above). The right part documents their relations with their mother and father, which add up to a total of 20,866 respondent-parent relationships, so-called “dyads”. The number of cases does not double because not all respondents were able or willing to provide information about both of their parents (see Table 1).

Most people in Switzerland are well educated and are in a good financial situation. Only 15 per cent are low-skilled, and only about one in ten live in a household that struggles to make ends meet. Sixty per cent are at least doing well financially, and over a quarter are doing very well.

As far as age is concerned, a good half of the population belongs to the middle group, while 15 per cent are younger and a third older. As expected, there are somewhat more women than men, and almost half of the adults living in Switzerland have a migration background. A third are first-generation migrants (i.e., born outside of Switzerland), and 15 per cent belong to the second generation (i.e., they were born in Switzerland, but at least one of their parents was not). Slightly more than half of the population has no direct migration background.

German-speaking Switzerland is by far the largest of the three language regions. Over 70 per cent of adults live in this part of the country, followed by just under a quarter who live in French Switzerland and one in twenty who live in Ticino, i.e., Italian Switzerland.

The percentages for intergenerational relationships correspond to those of the respondents. Since the parents are also included here, the dyads can be differentiated for mothers and fathers. Roughly speaking, a quarter of dyads each are daughter-mother, daughter-father, son-mother or son-father relationships. Once again, there are somewhat more female than male respondents.

Living and deceased parents

Table 7 differentiates between living and deceased parents (the numbers in the first and third column do not quite add up to the 20,866 dyads of the previous table, as the 168 unknown parents are not shown here). In regard to deceased parents, at first no further cases are excluded. However, since SwissGen refers to intergenerational relationships of adults in Switzerland, in

Table 7: Living and deceased parents

| | Parents alive | | Parents deceased | | Parents deceased* | |

Source: SwissGen. Cases unweighted, per cent weighted. *: Excluding respondents whose parents passed away before respondent turned 18 and/or before respondent moved to Switzerland.

the case of deceased parents, two groups of respondents are excluded from the third part of Table 7: a) those whose parents passed away before the respondent turned 18 and b) those whose parents passed away before the respondent moved to Switzerland.

There are some striking differences between adults whose parents are still alive and those whose parents have already passed away. Of course, age is crucial. Younger and middle-aged adults are much more likely to have living parents, while most parents of those in the oldest respondent group have already died. Accordingly, Table 7 indicates that only one in twenty current intergenerational relationships between adults and their living parents involve children aged 60 or older, while respondents aged 60+ make up two-thirds of those with deceased parents.

This enormous difference in age also shows itself in other areas. The (younger) adults with living parents tend to be more educated, which is related to the educational expansion over the last decades.

Conversely, among adults with deceased parents there is a particularly high proportion who are financially very well-off. Inheritances from parents may also play a role here (see the analysis volume). Among adults with living parents, we find more intergenerational relationships with mothers than fathers because women tend to have a longer lifespan. There is thus a particularly high number of daughter-father dyads among adults with deceased parents: daughters live longer and fathers are both older at the time when they have children and pass away earlier.

Excluding respondents who lost their parents before they turned 18 or before they moved to Switzerland reduces the proportion of first-generation migrants among those with deceased parents from just under a third to a quarter. At the same time, the proportion of the second generation is significantly higher among those with living parents than among those whose parents have passed away – indicating a younger age of the second generation and thus of their parents.

However, among the three language regions there are no disparities worth mentioning when it comes to the proportions of adults with living and deceased parents. They do not differ in German, French and Italian Switzerland.

Questions

Introduction

This chapter contains the SwissGen questions. To provide the best possible documentation of the survey, the original paper-and-pencil questionnaires are presented here in all four languages of the study: German, French, Italian and English. The personal questions are listed first, followed by the questions regarding the parents.

As mentioned above, SwissGen contains five questionnaires for each language: one personal questionnaire and four separate questionnaires for living and deceased mothers and fathers – in each language. This adds up to 20 questionnaires. To avoid redundancies, however, not all five questionnaires are presented here. Since the questionnaires for mothers and fathers are identical (“mother” in one is simply replaced by “father” in the other), only the questionnaires about mothers are included here, but in all four languages. This adds up to a total of twelve questionnaires.

Therefore, the following three questionnaires are available for each language: 1) the personal questionnaire, 2) the questionnaire for living mothers and 3) the questionnaire for mothers who are deceased. Since most of the respondents used the German version, these questionnaires are presented first, followed by the French, Italian and English versions.

1 | Personenfragebogen

Im Folgenden haben wir einige Fragen zu Ihren lebenden Familienmitgliedern.

Wenn Sie z.B. mehr als 10 Kinder haben, kreuzen Sie bitte ⑩ an.

17. Wie viele leibliche Kinder haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
18. Wie viele Adoptiv-, Pflege- und Stiefkinder haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
19. Wie viele Enkelkinder haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
20. Wie viele leibliche Schwestern haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
21. Wie viele leibliche Brüder haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
22. Wie viele Adoptiv-, Halb-, Stiefschwestern haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
23. Wie viele Adoptiv-, Halb-, Stiefbrüder haben Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
24. Wie viele Ihrer Geschwister sind älter als Sie? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩
25. Wie viele Ihrer leiblichen Grosseltern leben noch? ① ② ③ ④
26. Wie viele Personen leben insgesamt in Ihrem Haushalt (einschließlich Ihnen)? ① ② ③ ④ ⑤ ⑥ ⑦ ⑧ ⑨ ⑩

27. Wer lebt in Ihrem Haushalt? (*Mehrere Antworten möglich*)

- | | |
|--|---|
| <input type="checkbox"/> Ich lebe alleine | <input type="checkbox"/> Enkel |
| <input type="checkbox"/> Partner/in | <input type="checkbox"/> Geschwister |
| <input type="checkbox"/> Eltern(teil) | <input type="checkbox"/> Andere Verwandte |
| <input type="checkbox"/> Grosseltern(teil) | <input type="checkbox"/> Nicht verwandte Person(en) |
| <input type="checkbox"/> Kind(er) | |

28. Haben sich Ihre leiblichen Eltern voneinander getrennt?

- Nein Ja, Trennungsjahr: _____

Nun zwei Fragen zur Zeit bis zu Ihrem 16. Lebensjahr.

29. Wie häufig kam es bis zum 16. Lebensjahr zwischen Ihren leiblichen Eltern zu Konflikten?

| Immer | Häufig | Manchmal | Selten | Nie |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| <input type="checkbox"/> |

30. Wo sind Sie bis zum 16. Lebensjahr ganz oder überwiegend aufgewachsen? (*Mehrere Antworten möglich*)

- Bei beiden leiblichen Eltern gemeinsam
- Bei der leiblichen Mutter
- Beim leiblichen Vater
- Bei der Adoptiv-, Pflege- oder Stiefmutter
- Beim Adoptiv-, Pflege- oder Stiefvater
- Bei anderen Verwandten
- Sonstiges, und zwar: _____

1 Personenfragebogen

Im Folgenden hätten wir einige Fragen zu Ihren leiblichen Eltern.

31. Lebt Ihre leibliche Mutter?

Ja

Bitte beantworten Sie für Ihre leibliche Mutter den Fragebogen 2A.

Nein

Bitte beantworten Sie für Ihre leibliche Mutter den Fragebogen 2B.

Leibliche Mutter unbekannt

Bitte beantworten Sie für Ihre leibliche Mutter keinen der beiden Fragebögen 2A und 2B.

32. Lebt Ihr leiblicher Vater?

Ja

Bitte beantworten Sie für Ihren leiblichen Vater den Fragebogen 3A.

Nein

Bitte beantworten Sie für Ihren leiblichen Vater den Fragebogen 3B.

Leiblicher Vater unbekannt

Bitte beantworten Sie für Ihren leiblichen Vater keinen der beiden Fragebögen 3A und 3B.

2A | Mutter lebt

Online-Teilnahme alternativ unter:

| <input type="checkbox"/> Schweiz | <input type="checkbox"/> Italien | <input type="checkbox"/> Serbien |
| <input type="checkbox"/> Deutschland (West) | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Deutschland (Ost) | <input type="checkbox"/> Spanien | <input type="checkbox"/> Mazedonien |
| <input type="checkbox"/> Frankreich | <input type="checkbox"/> Türkei | <input type="checkbox"/> Vereinigtes Königreich |
| <input type="checkbox"/> Anderes, und zwar: <input type="text"/> | | |

3. In welchem Land wohnte Ihre Mutter zuletzt?

- | | | |
|--|-----------------------------------|---|
| <input type="checkbox"/> Schweiz | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Deutschland | <input type="checkbox"/> Spanien | <input type="checkbox"/> Mazedonien |
| <input type="checkbox"/> Frankreich | <input type="checkbox"/> Türkei | <input type="checkbox"/> Vereinigtes Königreich |
| <input type="checkbox"/> Italien | <input type="checkbox"/> Serbien | |
| <input type="checkbox"/> Anderes, und zwar: <input type="text"/> | | |

4. Welche Staatsangehörigkeit(en) besass Ihre Mutter? *(Mehrere Antworten möglich)*

- | | | |
|---|-----------------------------------|---|
| <input type="checkbox"/> Schweiz | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Deutschland | <input type="checkbox"/> Spanien | <input type="checkbox"/> Mazedonien |
| <input type="checkbox"/> Frankreich | <input type="checkbox"/> Türkei | <input type="checkbox"/> Vereinigtes Königreich |
| <input type="checkbox"/> Italien | <input type="checkbox"/> Serbien | |
| <input type="checkbox"/> Andere, und zwar: <input type="text"/> | | |

5. Was war der höchste Schulabschluss Ihrer Mutter?

(Bitte ordnen Sie ausländische oder ältere Schulabschlüsse bestmöglich ein.)

- Kein Schulabschluss
- Obligatorischer Schulabschluss
- Maturität

6. Was war der höchste berufliche Abschluss Ihrer Mutter?

- Kein Abschluss
- Berufsausbildung (z.B. Lehre, Berufsschule, Handelsdiplom)
- Höhere Berufsausbildung (z.B. Meisterdiplom, Eidg. Fachausweis, Höhere Fachschule)
- Fachhochschule, Pädagogische Hochschule
- Universität, ETH

7. Welchen Erwerbsstatus hatte Ihre Mutter zuletzt? *(Mehrere Antworten möglich)*

- Erwerbstätig (inkl. Selbständige)
- In Ausbildung (z.B. Lehre, Studium)

Pensum: %

- Arbeitslos (RAV)
- Nicht erwerbstätig (z.B. Hausfrau)
- Rentnerin (AHV/IV)

2B | Mutter verstorben

8. Wie gut kam der Haushalt Ihrer Mutter zuletzt finanziell zurecht, wenn 0 «sehr schlecht» und 10 «sehr gut» bedeutet?

| | | | | | | | | | | | |
|---------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Sehr schlecht | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
|---------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|

9. Wie würden Sie den Gesundheitszustand Ihrer Mutter in den letzten 12 Monaten vor ihrem Tod beschreiben, wenn 0 «sehr schlecht» und 10 «sehr gut» bedeutet?

| | | | | | | | | | | | |
|---------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Sehr schlecht | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
|---------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|

10. Welchen Zivilstand hatte Ihre Mutter zuletzt?

- | | |
|---|--|
| <input type="checkbox"/> Ledig | <input type="checkbox"/> Geschieden/gerichtlich getrennt |
| <input type="checkbox"/> Verheiratet | <input type="checkbox"/> Eingetragene Partnerschaft aufgehoben |
| <input type="checkbox"/> Eingetragene Partnerschaft | <input type="checkbox"/> Verwitwet |

11. Hatte Ihre Mutter zuletzt eine Partnerin bzw. einen Partner?

- | | |
|--|-------------------------------|
| <input type="checkbox"/> Ja, meinen leiblichen Vater | <input type="checkbox"/> Nein |
| <input type="checkbox"/> Ja, eine andere Person | |

12. Wie eng fühlten Sie sich mit Ihrer Mutter verbunden?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Sehr eng | Eng | Mittel | Nicht sehr eng | Überhaupt nicht eng |
| <input type="checkbox"/> |

13. Wie wichtig war Ihre Mutter für Sie?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Sehr wichtig | Wichtig | Mittel | Nicht sehr wichtig | Überhaupt nicht wichtig |
| <input type="checkbox"/> |

14. Wohnten Sie zuletzt mit Ihrer Mutter in einem gemeinsamen Haushalt?

- | | |
|--|-------------------------------|
| <input type="checkbox"/> Ja weiter mit Frage 18 | <input type="checkbox"/> Nein |
|--|-------------------------------|

15. Seit welchem Jahr leben Sie nicht mehr mit Ihrer Mutter in einem gemeinsamen Haushalt?

- Seit:
- | | |
|---|--|
| <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> | <input type="checkbox"/> Ich habe nie mit meiner Mutter gelebt |
|---|--|

16. Wie weit wohnte Ihre Mutter zuletzt von Ihnen entfernt?

- | | |
|---|--|
| <input type="checkbox"/> Im gleichen Gebäude | <input type="checkbox"/> 25 bis unter 100 Kilometer |
| <input type="checkbox"/> Weniger als 1 Kilometer | <input type="checkbox"/> 100 bis unter 500 Kilometer |
| <input type="checkbox"/> 1 bis unter 5 Kilometer | <input type="checkbox"/> 500 Kilometer oder mehr |
| <input type="checkbox"/> 5 bis unter 25 Kilometer | |

17. Wie häufig hatten Sie während der letzten 12 Monate vor dem Tod Ihrer Mutter mit ihr Kontakt (z.B. persönlich, telefonisch, per Post, SMS, E-Mail, usw.)?

- | | |
|--|---|
| <input type="checkbox"/> Täglich | <input type="checkbox"/> Ungefähr einmal pro Monat |
| <input type="checkbox"/> Mehrmals in der Woche | <input type="checkbox"/> Weniger als einmal pro Monat |
| <input type="checkbox"/> Ungefähr einmal pro Woche | <input type="checkbox"/> Nie |
| <input type="checkbox"/> Ungefähr einmal alle 2 Wochen | |

2B | Mutter verstorben

Im Folgenden werden einige Situationen genannt, die in Familien auftreten können. Wie war das bei Ihnen und Ihrer leiblichen Mutter in den letzten 12 Monaten vor ihrem Tod?

18. Ich habe mir Sorgen um meine Mutter gemacht.
19. Meine Mutter und ich hatten unterschiedliche Meinungen.
20. Die Gefühle gegenüber meiner Mutter änderten sich immer mal wieder.
21. Ich habe mich von meiner Mutter verstanden gefühlt.
22. Meine Mutter gab mir Anerkennung.
23. Ich fühlte mich verpflichtet, meiner Mutter bei Bedarf zu helfen.
24. Mit meiner Mutter kam es zu Streit.
25. Meine Mutter interessierte sich für mein Leben.
26. Meine Mutter mischte sich zu sehr in mein Leben ein.
27. Bei Bedarf hätte/habe ich meine Mutter finanziell unterstützt.
28. Die Gefühle gegenüber meiner Mutter waren widersprüchlich.
29. Meine Mutter erwartete zu viel von mir.
30. Meine Mutter nahm mich ernst.
31. Zwischen meiner Mutter und mir bestanden Spannungen.
32. Ich fühlte mich von meiner Mutter respektiert.
33. Ich war mit der Beziehung zu meiner Mutter unzufrieden.
34. Zwischen meiner Mutter und mir bestanden Konflikte.
35. Ich hätte/habe meine Mutter bei Bedarf persönlich gepflegt.
36. Die Beziehung zu meiner Mutter hat mich überfordert.

27. Qui habite dans votre ménage ? (*Plusieurs réponses possibles*)

- | | |
|---|---|
| <input type="checkbox"/> Je vis seul/e | <input type="checkbox"/> Petit(s)-enfant(s) |
| <input type="checkbox"/> Partenaire | <input type="checkbox"/> Frère(s) et sœur(s) |
| <input type="checkbox"/> Parents (un parent) | <input type="checkbox"/> D'autres membres de la parenté |
| <input type="checkbox"/> Grands-parents (un grand-parent) | <input type="checkbox"/> Personnes sans lien de parenté |
| <input type="checkbox"/> Enfant(s) | |

28. Est-ce que vos parents biologiques se sont séparés ?

- | | | | | |
|------------------------------|---|----------------------|----------------------|----------------------|
| <input type="checkbox"/> Non | <input type="checkbox"/> Oui, année de la séparation : <input type="text"/> | <input type="text"/> | <input type="text"/> | <input type="text"/> |
|------------------------------|---|----------------------|----------------------|----------------------|

Suivent maintenant deux questions concernant votre vie jusqu'à l'âge de 16 ans.

29. Combien de fois jusqu'à l'âge de 16 ans y-a-t-il eu des conflits entre vos parents biologiques ?

| Toujours | Souvent | Parmi | Rarement | Jamais |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| <input type="checkbox"/> |

30. Où avez-vous grandi entièrement ou majoritairement jusqu'à l'âge de 16 ans ? (*Plusieurs réponses possibles*)

- | |
|--|
| <input type="checkbox"/> Chez mes deux parents biologiques à la fois |
| <input type="checkbox"/> Chez ma mère biologique |
| <input type="checkbox"/> Chez mon père biologique |
| <input type="checkbox"/> Chez ma mère adoptive, nourricière ou ma belle-mère |
| <input type="checkbox"/> Chez mon père adoptif, nourricier ou mon beau-père |
| <input type="checkbox"/> Chez d'autres membres de la parenté |
| <input type="checkbox"/> Ailleurs, à savoir : _____ |

1 Questionnaire individuel

Pour finir, nous avons quelques questions concernant vos parents biologiques.

31. Votre mère biologique est-elle vivante ?

Oui

 Veuillez répondre au questionnaire 2A concernant votre mère biologique.

Non

 Veuillez répondre au questionnaire 2B concernant votre mère biologique.

Mère biologique inconnue

 Veuillez ne répondre à aucun des questionnaires 2A et 2B concernant votre mère biologique.

32. Votre père biologique est-il vivant ?

Oui

 Veuillez répondre au questionnaire 3A concernant votre père biologique.

Non

 Veuillez répondre au questionnaire 3B concernant votre père biologique.

Père biologique inconnu

 Veuillez ne répondre à aucun des questionnaires 3A et 3B concernant votre père biologique.

2A | Mère en vie

Ou bien participation en ligne sur :
<https://swissgen.limequery.com>
 Jeton : abcde

Les questions suivantes concernent votre mère biologique.

Veuillez remplir ce questionnaire uniquement si votre mère biologique est encore en vie.

1. En quelle année est née votre mère ?

2. Dans quel pays est née votre mère ?

(Veuillez indiquer le pays/la région auquel/à laquelle appartient le lieu de naissance aujourd'hui.)

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie |
| <input type="checkbox"/> Allemagne de l'Ouest | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne de l'Est | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

3. Dans quel pays réside votre mère aujourd'hui ?

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie | |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

4. Quelle(s) nationalité(s) possède votre mère ? (Plusieurs réponses possibles)

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie | |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

5. Quel est le diplôme de fin de scolarité le plus élevé de votre mère ?

(Merci de classer les diplômes de fin de scolarité étrangers ou anciens dans le meilleur ordre possible.)

- Pas de diplôme de fin de scolarité
- Diplôme de fin de scolarité obligatoire
- Maturité

6. Quelle est la plus haute qualification professionnelle de votre mère ?

- Pas de qualification
- Formation professionnelle (p. ex., apprentissage, école professionnelle, diplôme de commerce)
- Formation professionnelle supérieure (p. ex., diplôme de maîtrise, brevet fédéral, école supérieure spécialisée)
- Haute école spécialisée, haute école pédagogique
- Université, EPF

7. Quel est le statut professionnel de votre mère ? (Plusieurs réponses possibles)

- Active (activité indépendante comprise)
- En formation (p. ex., apprentissage, études)

Taux d'occupation : %

- Au chômage (ORP)

- Non active (p. ex., femme au foyer)

- Retraitee (AVS/AI)

2A | Mère en vie

8. Quelle est la situation financière du ménage de votre mère à l'heure actuelle, si 0 signifie « très mauvaise » et 10 « très bonne » ?

| | | | | | | | | | | | |
|---------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Très mauvaise | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
| | | | | | | | | | | | Très bonne |

9. Comment décririez-vous l'état de santé de votre mère, si 0 signifie « très mauvais » et 10 « très bon » ?

| | | | | | | | | | | | |
|--------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Très mauvais | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
| | | | | | | | | | | | Très bon |

10. Quel est l'état civil de votre mère ?

- | | |
|---|--|
| <input type="checkbox"/> Célibataire | <input type="checkbox"/> Divorcée/séparée judiciairement |
| <input type="checkbox"/> Mariée | <input type="checkbox"/> Partenariat enregistré annulé |
| <input type="checkbox"/> Partenariat enregistré | <input type="checkbox"/> Veuve |

11. Votre mère, a-t-elle une partenaire ou bien un partenaire ?

- | | |
|---|------------------------------|
| <input type="checkbox"/> Oui, mon père biologique | <input type="checkbox"/> Non |
| <input type="checkbox"/> Oui, une autre personne | |

12. À quel point vous sentez-vous proche de votre mère aujourd'hui ?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Très proche | Proche | Moyennement proche | Pas très proche | Pas du tout proche |
| <input type="checkbox"/> |

13. Quelle importance a votre mère pour vous ?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Très importante | Importante | Moyennement importante | Pas très importante | Aucune importance |
| <input type="checkbox"/> |

14. Faites-vous ménage commun avec votre mère ?

- | | |
|---|------------------------------|
| <input type="checkbox"/> Oui continuez avec la question 18 | <input type="checkbox"/> Non |
|---|------------------------------|

15. Depuis quelle année ne faites-vous plus ménage commun avec votre mère ?

- | | | |
|----------|---|---|
| Depuis : | <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> | <input type="checkbox"/> Je n'ai jamais vécu avec ma mère |
|----------|---|---|

16. À quelle distance de chez vous habite votre mère ?

- | | |
|--|---|
| <input type="checkbox"/> Dans le même bâtiment | <input type="checkbox"/> De 25 à moins de 100 kilomètres |
| <input type="checkbox"/> À moins d'un kilomètre | <input type="checkbox"/> De 100 à moins de 500 kilomètres |
| <input type="checkbox"/> De 1 à moins de 5 kilomètres | <input type="checkbox"/> À 500 kilomètres ou plus |
| <input type="checkbox"/> De 5 à moins de 25 kilomètres | |

17. Durant les 12 derniers mois – combien de fois avez-vous eu des contacts avec votre mère (p. ex., en personne, par téléphone, par courrier, par SMS, par mail, etc.) ?

2A | Mère en vie

| Maintenant, nous aimerais savoir si dans les 12 derniers mois, vous avez apporté ou reçu du soutien ? | Chaque jour | Chaque semaine | Chaque mois | Plus rarement | Jamais |
|---|---|--|---|--------------------------|--------------------------|
| 50. Combien de fois, dans les 12 derniers mois, avez-vous <u>reçu</u> l'aide suivante de votre mère ? | | | | | |
| Ménage, courses, formalités administratives ou autres | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Soutien émotionnel (p. ex., conseils, consolation) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Soins (p. ex., soins du corps, aide pour se lever et s'habiller) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Garde des enfants (<i>pas d'enfants = jamais</i>) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 51. Combien de fois, dans les 12 derniers mois, avez-vous <u>apporté</u> l'aide suivante à votre mère ? | | | | | |
| Ménage, courses, formalités administratives ou autres | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Soutien émotionnel (p. ex., conseils, consolation) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Soins (p. ex., soins du corps, aide pour se lever et s'habiller) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 52. Avez-vous <u>reçu</u> , dans les 12 derniers mois, des dons d'argent, des cadeaux matériels ou des paiements de la part de votre mère ? (<i>En font partie aussi les cadeaux et les paiements que vous avez reçus de vos deux parents biologiques à la fois. Veuillez indiquer dans ce cas la moitié du montant.</i>) | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 500 CHF <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> 10 000 CHF et plus | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 1 000 CHF <input type="checkbox"/> Jusqu'à 10 000 CHF | | | |
| 53. Avez-vous <u>fait</u> , dans les 12 derniers mois, des cadeaux d'argent, des cadeaux matériels ou des paiements à votre mère ? (<i>En font aussi partie les cadeaux et les paiements que vous avez faits à vos deux parents biologiques à la fois. Veuillez indiquer dans ce cas la moitié du montant.</i>) | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 500 CHF <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> 10 000 CHF et plus | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 1 000 CHF <input type="checkbox"/> Jusqu'à 10 000 CHF | | | |
| 54. Votre mère a-t-elle <u>jamais fait un héritage</u> ? | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> Jusqu'à 100 000 CHF <input type="checkbox"/> Jusqu'à 1 000 000 CHF | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 25 000 CHF <input type="checkbox"/> Jusqu'à 250 000 CHF <input type="checkbox"/> 1 000 000 CHF et plus | <input type="checkbox"/> <input type="checkbox"/> Jusqu'à 50 000 CHF <input type="checkbox"/> Jusqu'à 500 000 CHF <input type="checkbox"/> Je ne sais pas | | |
| 55. Pensez-vous que vous <u>allez recevoir un jour un héritage</u> de votre mère ? (<i>En font aussi partie les legs que vous allez recevoir de vos deux parents biologiques. Veuillez indiquer dans ce cas la moitié du montant.</i>) | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> Jusqu'à 100 000 CHF <input type="checkbox"/> Jusqu'à 1 000 000 CHF | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 25 000 CHF <input type="checkbox"/> Jusqu'à 250 000 CHF <input type="checkbox"/> 1 000 000 CHF et plus | <input type="checkbox"/> <input type="checkbox"/> Jusqu'à 50 000 CHF <input type="checkbox"/> Jusqu'à 500 000 CHF <input type="checkbox"/> Je ne sais pas | | |
| 56. Avez-vous <u>jamais reçu</u> de votre mère une ou plusieurs <u>donations</u> assez importantes (p. ex., argent, objets de valeur ou immeubles) ? (<i>En font aussi partie les donations que vous avez reçues de vos deux parents biologiques à la fois. Veuillez indiquer dans ce cas la moitié du montant.</i>) | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> Jusqu'à 100 000 CHF <input type="checkbox"/> Jusqu'à 1 000 000 CHF | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 25 000 CHF <input type="checkbox"/> Jusqu'à 250 000 CHF <input type="checkbox"/> 1 000 000 CHF et plus | <input type="checkbox"/> <input type="checkbox"/> Jusqu'à 50 000 CHF <input type="checkbox"/> Jusqu'à 500 000 CHF <input type="checkbox"/> Je ne sais pas | | |
| 57. Pensez-vous que vous <u>allez (encore) recevoir un jour une donation</u> assez importante de votre mère ? (<i>En font aussi partie les donations que vous allez recevoir de vos deux parents biologiques à la fois. Veuillez indiquer dans ce cas la moitié du montant.</i>) | <input type="checkbox"/> Oui, au total : <input type="checkbox"/> Jusqu'à 5 000 CHF <input type="checkbox"/> Jusqu'à 100 000 CHF <input type="checkbox"/> Jusqu'à 1 000 000 CHF | <input type="checkbox"/> Non <input type="checkbox"/> Jusqu'à 25 000 CHF <input type="checkbox"/> Jusqu'à 250 000 CHF <input type="checkbox"/> 1 000 000 CHF et plus | <input type="checkbox"/> <input type="checkbox"/> Jusqu'à 50 000 CHF <input type="checkbox"/> Jusqu'à 500 000 CHF <input type="checkbox"/> Je ne sais pas | | |

2B | Mère décédée

Ou bien participation en ligne sur :
<https://swissgen.limequery.com>
 Jeton : abcde

Les questions suivantes concernent votre mère biologique.
Veuillez remplir ce questionnaire uniquement si votre mère biologique est décédée.

1. En quelle année est née votre mère ?

2. Dans quel pays est née votre mère ?
(Veuillez indiquer le pays/la région auquel/à laquelle appartient le lieu de naissance aujourd'hui.)

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie |
| <input type="checkbox"/> Allemagne de l'Ouest | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne de l'Est | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

3. Dans quel pays résidait votre mère en dernier lieu ?

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie | |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

4. Quelle(s) nationalité(s) possédaient votre mère ? *(Plusieurs réponses possibles)*

- | | | |
|---|-----------------------------------|--------------------------------------|
| <input type="checkbox"/> Suisse | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Allemagne | <input type="checkbox"/> Espagne | <input type="checkbox"/> Macédoine |
| <input type="checkbox"/> France | <input type="checkbox"/> Turquie | <input type="checkbox"/> Royaume Uni |
| <input type="checkbox"/> Italie | <input type="checkbox"/> Serbie | |
| <input type="checkbox"/> Autre, à savoir : <input type="text"/> | | |

5. Quel était le diplôme de fin de scolarité le plus élevé de votre mère ?

(Merci de classer les diplômes de fin de scolarité étrangers ou anciens dans le meilleur ordre possible.)

- Pas de diplôme de fin de scolarité
- Diplôme de fin de scolarité obligatoire
- Maturité

6. Quelle était la plus haute qualification professionnelle de votre mère ?

- Pas de qualification
- Formation professionnelle (p. ex., apprentissage, école professionnelle, diplôme de commerce)
- Formation professionnelle supérieure (p. ex., diplôme de maîtrise, brevet fédéral, école supérieure spécialisée)
- Haute école spécialisée, haute école pédagogique
- Université, EPF

7. Quel était le statut professionnel de votre mère en dernier lieu ? *(Plusieurs réponses possibles)*

- | | |
|--|---|
| <input type="checkbox"/> Active (activité indépendante comprise) | <input type="checkbox"/> En formation (p. ex., apprentissage, études) |
| Taux d'occupation : <input type="text"/> % | <input type="checkbox"/> Au chômage (ORP) |
| | <input type="checkbox"/> Non active (p. ex., femme au foyer) |

2B | Mère décédée

Certaines situations qui peuvent se présenter dans les familles sont énumérées ci-après. Qu'en était-il pour vous et votre mère biologique dans les 12 derniers mois avant sa mort ?

18. Je me suis fait du souci pour ma mère.
19. Ma mère et moi, nous avions des opinions différentes.
20. Mes sentiments envers ma mère changeaient de temps à autre.
21. Je me suis senti/e compris/e par ma mère.
22. Ma mère m'a montré de l'estime.
23. Je me suis senti/e obligé/e d'aider ma mère au besoin.
24. Ma mère et moi, nous avons eu des disputes.
25. Ma mère s'intéressait à ma vie.
26. Ma mère se mêlait trop de ma vie.
27. En cas de besoin, j'aurais/j'ai soutenu financièrement ma mère.
28. Mes sentiments envers ma mère étaient contradictoires.
29. Ma mère attendait trop de moi.
30. Ma mère me prenait au sérieux.
31. Il y avait des tensions entre ma mère et moi.
32. Je me sentais respecté/e par ma mère.
33. J'étais mécontente de ma relation avec ma mère.
34. Il y avait des conflits entre ma mère et moi.
35. En cas de besoin, j'aurais/j'ai soigné personnellement ma mère.
36. Ma relation avec ma mère m'a stressé/e.
37. J'aurais dû me comporter différemment vis-à-vis de ma mère.
38. Ma mère m'a trop critiquée.
39. Ma mère et moi, nous avions beaucoup à nous dire.
40. Ma relation avec ma mère m'a pesé.
41. Je me sentais étranger/étrangère à ma mère.

1 Questionario Dati personali

In alternativa partecipazione online:
<https://swissgen.limequery.com>
 Identificativo: abcde

Il presente questionario riporta domande generali sui suoi dati personali. La preghiamo di compilarlo per primo.

1. In che anno è nato/a?

2. Sesso?

Maschio

Femmina

3. In che Paese è nato/a?

(La preghiamo di indicare il Paese/l'area in cui si trova oggi il luogo di nascita.)

Svizzera

Italia

Serbia

Germania (Ovest)

Portogallo

Kosovo

Germania (Est)

Spagna

Macedonia

Francia

Turchia

Regno Unito

Altro Paese, precisamente:

4. Da quando vive in Svizzera (anno)?

Dalla nascita

Dal:

5. Quale cittadinanza/quali cittadinanze possiede? (Più risposte possibili)

Svizzera

Portogallo

Kosovo

Germania

Spagna

Macedonia

Francia

Turchia

Regno Unito

Altra/e, precisamente:

6. Qual è il diploma scolastico più alto da Lei conseguito? (Nel caso di diplomi conseguiti all'estero o da molto tempo La preghiamo di indicare la risposta che più si avvicina alle categorie proposte.)

Nessun certificato finale di studio

Certificato finale della scuola dell'obbligo

Maturità

7. Qual è il diploma professionale più alto da Lei conseguito?

Nessun diploma

Formazione professionale (p.es. apprendistato, scuola professionale, diploma della scuola media di commercio)

Formazione professionale superiore (p.es. maestria federale, attestato professionale federale, scuola specializzata superiore)

Scuola universitaria professionale, alta scuola pedagogica

Università, Politecnico federale

8. Qual è la Sua condizione professionale? (Più risposte possibili)

Occupato/a (inclusa attività in proprio)

In formazione (p.es. apprendistato, studio)

Percentuale lavorativa: %

Disoccupato/a (URC)

Non esercita un'attività lucrativa (p.es. casalingo/a)

Pensionato/a (AVS/AI)

1 | Questionario Dati personali

9. Qual è la situazione finanziaria del Suo nucleo familiare? Indichi un valore compreso tra 0 = «pessima» e 10 = «ottima»?

| | | | | | | | | | | | | |
|---------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|--------|
| Pessima | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 | Ottima |

Le seguenti domande si riferiscono a Sua madre naturale.

La preghiamo di compilare questo questionario soltanto se Sua madre naturale è deceduta.

1. In che anno è nata Sua madre?

2. In che Paese è nata Sua madre?

(La preghiamo di indicare il Paese/l'area in cui si trova oggi il luogo di nascita)

- | | | |
|--|-------------------------------------|--------------------------------------|
| <input type="checkbox"/> Svizzera | <input type="checkbox"/> Italia | <input type="checkbox"/> Serbia |
| <input type="checkbox"/> Germania (Ovest) | <input type="checkbox"/> Portogallo | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germania (Est) | <input type="checkbox"/> Spagna | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> Francia | <input type="checkbox"/> Turchia | <input type="checkbox"/> Regno Unito |
| <input type="checkbox"/> Altro Paese, precisare: _____ | | |

3. In che Paese viveva Sua madre quando è deceduta?

- | | | |
|--|-------------------------------------|--------------------------------------|
| <input type="checkbox"/> Svizzera | <input type="checkbox"/> Portogallo | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germania | <input type="checkbox"/> Spagna | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> Francia | <input type="checkbox"/> Turchia | <input type="checkbox"/> Regno Unito |
| <input type="checkbox"/> Italia | <input type="checkbox"/> Serbia | |
| <input type="checkbox"/> Altro Paese, precisare: _____ | | |

4. Quale cittadinanza/quali cittadinanze possedeva Sua madre? (Più risposte possibili)

- | | | |
|--|-------------------------------------|--------------------------------------|
| <input type="checkbox"/> Svizzera | <input type="checkbox"/> Portogallo | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germania | <input type="checkbox"/> Spagna | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> Francia | <input type="checkbox"/> Turchia | <input type="checkbox"/> Regno Unito |
| <input type="checkbox"/> Italia | <input type="checkbox"/> Serbia | |
| <input type="checkbox"/> Altra/e, precisare: _____ | | |

5. Qual era il diploma scolastico più alto conseguito da Sua madre? (Nel caso di diplomi conseguiti all'estero o da molto tempo La preghiamo di indicare la risposta che più si avvicina alle categorie proposte.)

- Nessun certificato finale di studio
- Certificato finale della scuola dell'obbligo
- Maturità

6. Qual era il diploma professionale più alto conseguito da Sua madre?

- Nessun diploma
- Formazione professionale (p.es. apprendistato, scuola professionale, diploma della scuola media di commercio)
- Formazione professionale superiore (p.es. maestria federale, attestato professionale federale, scuola specializzata superiore)
- Scuola universitaria professionale, alta scuola pedagogica
- Università, Politecnico federale

7. Qual era la condizione professionale di Sua madre quando è deceduta? (Più risposte possibili)

- Occupata (inclusa attività in proprio)

- In formazione (p.es. apprendistato, studio)

Percentuale lavorativa: %

- Disoccupata (URC)

- Non esercitava un'attività lucrativa (p.es. casalinga)

- Pensionata (AVS/AI)

2B | Madre deceduta

8. Qual era la situazione finanziaria del nucleo familiare in cui viveva Sua madre? Indichi un valore compreso tra 0 = «pessima» e 10 = «ottima».

| | | | | | | | | | | | |
|---------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Pessima | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
| | | | | | | | | | | | Ottima |

9. Come descriverebbe lo stato di salute di Sua madre negli ultimi 12 mesi di vita? Indichi un valore compreso tra 0 = «pessimo» e 10 = «ottimo».

| | | | | | | | | | | | |
|---------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Pessimo | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
| | | | | | | | | | | | Ottimo |

10. Qual era lo stato civile di Sua madre quando è deceduta?

- | | |
|--|---|
| <input type="checkbox"/> Nubile | <input type="checkbox"/> Divorziata/separata legalmente |
| <input type="checkbox"/> Coniugata | <input type="checkbox"/> Unione domestica sciolta |
| <input type="checkbox"/> Unione domestica registrata | <input type="checkbox"/> Vedova |

11. Quando è deceduta Sua madre aveva un/a partner?

- | | |
|---|-----------------------------|
| <input type="checkbox"/> Sì, mio padre naturale | <input type="checkbox"/> No |
| <input type="checkbox"/> Sì, un'altra persona | |

12. Quanto si sentiva legato/a a Sua madre?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Molto legato/a | Legato/a | Abbastanza legato/a | Non molto legato/a | Non legato/a |
| <input type="checkbox"/> |

13. Quanto importante era Sua madre per Lei?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Molto importante | Importante | Abbastanza importante | Non molto importante | Per nulla importante |
| <input type="checkbox"/> |

14. Quando è deceduta Sua madre viveva con Lei?

- | | |
|--|-----------------------------|
| <input type="checkbox"/> Sì ➔ continui con la domanda 18 | <input type="checkbox"/> No |
|--|-----------------------------|

15. Da quando non viveva più con Sua madre (anno)?

Dal:  Non ho mai vissuto con mia madre

16. Quanto distante da Lei viveva Sua madre quando è deceduta?

- | | |
|---|--|
| <input type="checkbox"/> Nello stesso edificio | <input type="checkbox"/> Da 25 a meno di 100 chilometri |
| <input type="checkbox"/> A meno di 1 chilometro | <input type="checkbox"/> Da 100 a meno di 500 chilometri |
| <input type="checkbox"/> Da 1 a meno di 5 chilometri | <input type="checkbox"/> A 500 chilometri o più |
| <input type="checkbox"/> Da 5 a meno di 25 chilometri | |

17. Durante gli ultimi 12 mesi di vita di Sua madre con che frequenza ha avuto contatti con lei (p.es. di persona, per telefono, posta, SMS, e-mail ecc.)?

- | | |
|---|--|
| <input type="checkbox"/> Quotidianamente | <input type="checkbox"/> Circa una volta al mese |
| <input type="checkbox"/> Più volte a settimana | <input type="checkbox"/> Meno di una volta al mese |
| <input type="checkbox"/> Circa una volta a settimana | <input type="checkbox"/> Mai |
| <input type="checkbox"/> Circa una volta ogni due settimane | |

2B | Madre deceduta

Qui di seguito sono descritte alcune situazioni che si possono incontrare nei rapporti familiari. Com'era per Lei e la Sua madre naturale negli ultimi 12 mesi di vita di Sua madre?

| | Sempre | Spesso | A volte | Di rado | Mai |
|--|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 18. Ero preoccupato/a per mia madre. | <input type="checkbox"/> |
| 19. Mia madre e io avevamo opinioni diverse. | <input type="checkbox"/> |
| 20. Provavo sentimenti altalenanti nei confronti di mia madre. | <input type="checkbox"/> |
| 21. Mi sentivo compreso/a da mia madre. | <input type="checkbox"/> |
| 22. Mia madre mi apprezzava. | <input type="checkbox"/> |
| 23. Mi sentivo in dovere di aiutare mia madre in caso di bisogno. | <input type="checkbox"/> |
| 24. Mi capitava di litigare con mia madre. | <input type="checkbox"/> |
| 25. Mia madre mostrava interesse per la mia vita. | <input type="checkbox"/> |
| 26. Mia madre si intrometteva troppo nella mia vita. | <input type="checkbox"/> |
| 27. In caso di bisogno avrei/ho aiutato finanziariamente mia madre. | <input type="checkbox"/> |
| 28. Nei confronti di mia madre provavo sentimenti contrastanti. | <input type="checkbox"/> |
| 29. Mia madre si aspettava troppo da me. | <input type="checkbox"/> |
| 30. Mia madre mi prendeva sul serio. | <input type="checkbox"/> |

27. Who lives in your household? (Select all that apply.)

- | | |
|---|--|
| <input type="checkbox"/> I live alone | <input type="checkbox"/> Grandchild(ren) |
| <input type="checkbox"/> Partner | <input type="checkbox"/> Sibling(s) |
| <input type="checkbox"/> Parent(s) | <input type="checkbox"/> Other relative(s) |
| <input type="checkbox"/> Grandparent(s) | <input type="checkbox"/> Other non-related person(s) |
| <input type="checkbox"/> Child(ren) | |

28. Did your biological parents separate from each other?

- | | | | | | |
|-----------------------------|--|--------------------------|--------------------------|--------------------------|--------------------------|
| <input type="checkbox"/> No | <input type="checkbox"/> Yes (year of separation): | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
|-----------------------------|--|--------------------------|--------------------------|--------------------------|--------------------------|

And now two questions about the period up to your 16th birthday.

| | Always | Often | Sometimes | Rarely | Never |
|---|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 29. Before you turned 16, how often was there conflict between your biological parents? | <input type="checkbox"/> |

30. With whom did you grow up (entirely or predominantly) before you turned 16? (Select all that apply.)

- With both of my biological parents
- With my biological mother
- With my biological father
- With my adoptive, foster or stepmother
- With my adoptive, foster or stepfather
- With other relative(s)
- Other, namely: _____

1 Personal questionnaire

Below we have some questions about your biological parents.

31. Is your biological mother alive?

Yes

 Please answer questionnaire 2A about your biological mother.

No

 Please answer questionnaire 2B about your biological mother.

I do not know my biological mother.

 Please do not answer either questionnaire 2A or 2B about your biological mother.

32. Is your biological father alive?

Yes

 Please answer questionnaire 3A about your biological father.

No

 Please answer questionnaire 3B about your biological father.

I do not know my biological father.

 Please do not answer either questionnaire 3A or 3B about your biological father.

2A | Mother alive

Online survey option at:
<https://swissgen.limequery.com>
 Token: abcdE

The following questions concern your biological mother.

Please fill out this questionnaire only if your biological mother is still alive.

1. In what year was your mother born?

2. In which country was your mother born?

(Please specify the current country/region of her birthplace.)

Switzerland

Italy

Serbia

Germany (West)

Portugal

Kosovo

Germany (East)

Spain

Macedonia

France

Turkey

United Kingdom

Other, namely: _____

3. In which country does your mother currently live?

Switzerland

Portugal

Kosovo

Germany

Spain

Macedonia

France

Turkey

United Kingdom

Italy

Serbia

Other, namely: _____

4. In which country (or countries) does your mother hold citizenship? (Select all that apply.)

Not gainfully employed (e.g., homemaker)

Pensioner (AHV/IV)

2A | Mother alive

8. At the present time, how well does your mother's household fare financially, if 0 signifies "very poorly" and 10 signifies "very well"?

| | | | | | | | | | | | |
|-------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------|
| Very poorly | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | Very well |
|-------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------|

9. How would you describe your mother's state of health, if 0 signifies "very poor" and 10 signifies "very good"?

| | | | | | | | | | | | |
|-----------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------|
| Very poor | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | Very good |
|-----------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------|

10. What is your mother's marital status?

- | | |
|---|--|
| <input type="checkbox"/> Single | <input type="checkbox"/> Divorced/legally separated |
| <input type="checkbox"/> Married | <input type="checkbox"/> Annulled registered partnership |
| <input type="checkbox"/> Registered partnership | <input type="checkbox"/> Widowed |

11. Does your mother have a partner?

- | | |
|--|-----------------------------|
| <input type="checkbox"/> Yes, my biological father | <input type="checkbox"/> No |
| <input type="checkbox"/> Yes, another person | |

12. How closely do you feel connected with your mother today?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Very close | Close | Medium | Not very close | Not close at all |
| <input type="checkbox"/> |

13. How important is your mother to you?

| | | | | |
|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Very important | Important | Medium | Not very important | Not important at all |
| <input type="checkbox"/> |

14. Do you live with your mother in the same household?

- | | |
|---|-----------------------------|
| <input type="checkbox"/> Yes continue with question 18 | <input type="checkbox"/> No |
|---|-----------------------------|

15. In what year did you stop living with your mother in the same household?

Year: I have never lived with my mother

16. How far away does your mother live from you?

- | | |
|---|--|
| <input type="checkbox"/> In the same building | <input type="checkbox"/> 25 to under 100 kilometres |
| <input type="checkbox"/> Less than 1 kilometre | <input type="checkbox"/> 100 to under 500 kilometres |
| <input type="checkbox"/> 1 to under 5 kilometres | <input type="checkbox"/> 500 kilometres or more |
| <input type="checkbox"/> 5 to under 25 kilometres | |

17. During the last 12 months, how often have you had contact with your mother (e.g., in person, by phone, by mail, text, e-mail)?

- | | |
|---|---|
| <input type="checkbox"/> Daily | <input type="checkbox"/> About once a month |
| <input type="checkbox"/> Several times a week | <input type="checkbox"/> Less than once a month |
| <input type="checkbox"/> About once a week | <input type="checkbox"/> Never |
| <input type="checkbox"/> About once every 2 weeks | |

2A | Mother alive

Below are several situations that can occur in families. How do they describe the situation between you and your biological mother?

| | <input type="checkbox"/> Up to 50,000 CHF | <input type="checkbox"/> Up to 500,000 CHF | <input type="checkbox"/> Don't know | | | |

2B | Mother deceased

Online survey option at:
<https://swissgen.limequery.com>
 Token: abcdE

The following questions concern your biological mother.
 Please fill out this questionnaire only if your biological mother has passed away.

1. In what year was your mother born?

2. In which country was your mother born?
(Please specify the current country/region of her birthplace.)

- | | | |
|---|-----------------------------------|---|
| <input type="checkbox"/> Switzerland | <input type="checkbox"/> Italy | <input type="checkbox"/> Serbia |
| <input type="checkbox"/> Germany (West) | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germany (East) | <input type="checkbox"/> Spain | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> France | <input type="checkbox"/> Turkey | <input type="checkbox"/> United Kingdom |
| <input type="checkbox"/> Other, namely: _____ | | |

3. In which country did your mother live at the time of her passing?

- | | | |
|---|-----------------------------------|---|
| <input type="checkbox"/> Switzerland | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germany | <input type="checkbox"/> Spain | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> France | <input type="checkbox"/> Turkey | <input type="checkbox"/> United Kingdom |
| <input type="checkbox"/> Italy | <input type="checkbox"/> Serbia | |
| <input type="checkbox"/> Other, namely: _____ | | |

4. In which country (or countries) did your mother hold citizenship? *(Select all that apply.)*

- | | | |
|---|-----------------------------------|---|
| <input type="checkbox"/> Switzerland | <input type="checkbox"/> Portugal | <input type="checkbox"/> Kosovo |
| <input type="checkbox"/> Germany | <input type="checkbox"/> Spain | <input type="checkbox"/> Macedonia |
| <input type="checkbox"/> France | <input type="checkbox"/> Turkey | <input type="checkbox"/> United Kingdom |
| <input type="checkbox"/> Italy | <input type="checkbox"/> Serbia | |
| <input type="checkbox"/> Other, namely: _____ | | |

5. What was the highest school qualification your mother obtained?
(Please assign foreign or older school certificates to the best of your ability.)

- Never completed school
- Compulsory education
- University entrance qualification (Matura)

6. What was the highest vocational qualification your mother obtained?

- No vocational qualification
- Vocational education and training (e.g., apprenticeship, vocational school, trade school diploma)
- Higher vocational education and training (e.g., master craftsman certificate, Federal Certificate of Competence, vocational college)
- University of applied sciences, university of teacher education
- University, ETH

7. What was your mother's employment status at the time of her passing? *(Select all that apply.)*

- | | |
|---|--|
| <input type="checkbox"/> Employed (incl. self-employed) | <input type="checkbox"/> In education or training (e.g., apprenticeship, university) |
| Workload: | <input type="text"/> <input type="text"/> <input type="text"/> % |
| <input type="checkbox"/> Unemployed (RAV) | |
| <input type="checkbox"/> Not gainfully employed (e.g., homemaker) | |
| <input type="checkbox"/> Pensioner (AHV/IV) | |

2B | Mother deceased

8. How well did your mother's household fare financially at the time of her passing, if 0 signifies "very poorly" and 10 signifies "very well"?

| | | | | | | | | | | | |
|-------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Very poorly | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
|-------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|

9. During the 12 months prior to her passing, how would you describe your mother's state of health, if 0 signifies "very poor" and 10 signifies "very good"?

| | | | | | | | | | | | |
|-----------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|
| Very poor | <input type="checkbox"/> 0 | <input type="checkbox"/> 1 | <input type="checkbox"/> 2 | <input type="checkbox"/> 3 | <input type="checkbox"/> 4 | <input type="checkbox"/> 5 | <input type="checkbox"/> 6 | <input type="checkbox"/> 7 | <input type="checkbox"/> 8 | <input type="checkbox"/> 9 | <input type="checkbox"/> 10 |
|-----------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|----------------------------|-----------------------------|

10. What was your mother's marital status at the time of her passing?

- | | |
|---|--|
| <input type="checkbox"/> Single | <input type="checkbox"/> Divorced/legally separated |
| <input type="checkbox"/> Married | <input type="checkbox"/> Annulled registered partnership |
| <input type="checkbox"/> Registered partnership | <input type="checkbox"/> Widowed |

11. Did your mother have a partner at the time of her passing?

- | | |
|--|-----------------------------|
| <input type="checkbox"/> Yes, my biological father | <input type="checkbox"/> No |
| <input type="checkbox"/> Yes, another person | |

12. How closely did you feel connected with your mother?

| | | | | | | | | | |
|------------|--------------------------|-------|--------------------------|--------|--------------------------|----------------|--------------------------|------------------|--------------------------|
| Very close | <input type="checkbox"/> | Close | <input type="checkbox"/> | Medium | <input type="checkbox"/> | Not very close | <input type="checkbox"/> | Not close at all | <input type="checkbox"/> |
|------------|--------------------------|-------|--------------------------|--------|--------------------------|----------------|--------------------------|------------------|--------------------------|

13. How important was your mother to you?

| | | | | | | | | | |
|----------------|--------------------------|-----------|--------------------------|--------|--------------------------|--------------------|--------------------------|----------------------|--------------------------|
| Very important | <input type="checkbox"/> | Important | <input type="checkbox"/> | Medium | <input type="checkbox"/> | Not very important | <input type="checkbox"/> | Not important at all | <input type="checkbox"/> |
|----------------|--------------------------|-----------|--------------------------|--------|--------------------------|--------------------|--------------------------|----------------------|--------------------------|

14. At the time of her passing, did you live with your mother in the same household?

- | | | |
|------------------------------|---|-----------------------------|
| <input type="checkbox"/> Yes |  continue with question 18 | <input type="checkbox"/> No |
|------------------------------|---|-----------------------------|

15. In what year did you stop living with your mother in the same household?

Year:

- | |
|---|
| <input type="checkbox"/> I never lived with my mother |
|---|

16. At the time of her passing, how far away did your mother live from you?

- | | |
|---|--|
| <input type="checkbox"/> In the same building | <input type="checkbox"/> 25 to under 100 kilometres |
| <input type="checkbox"/> Less than 1 kilometre | <input type="checkbox"/> 100 to under 500 kilometres |
| <input type="checkbox"/> 1 to under 5 kilometres | <input type="checkbox"/> 500 kilometres or more |
| <input type="checkbox"/> 5 to under 25 kilometres | |

17. During the 12 months prior to her passing, how often did you have contact with your mother (e.g., in person, by phone, by mail, text, e-mail)?

- | | |
|---|---|
| <input type="checkbox"/> Daily | <input type="checkbox"/> About once a month |
| <input type="checkbox"/> Several times a week | <input type="checkbox"/> Less than once a month |
| <input type="checkbox"/> About once a week | <input type="checkbox"/> Never |
| <input type="checkbox"/> About once every 2 weeks | |

2B | Mother deceased

Below are several situations that can occur in families. How do they describe the situation between you and your biological mother during the last 12 months before her passing?

18. I worried about my mother.
19. My mother and I had different opinions about things.
20. The emotions I had toward my mother changed from time to time.
21. I felt like my mother understood me.
22. My mother appreciated me.
23. I felt obligated to help my mother when she needed me.
24. My mother and I quarrelled.
25. My mother was interested in my life.
26. My mother interfered with my life too much.
27. I (would have) supported my mother financially if necessary.
28. I had mixed feelings toward my mother.
29. My mother expected too much of me.
30. My mother took me seriously.
31. There was tension between my mother and me.
32. I felt like my mother respected me.
33. I was unhappy with my relationship with my mother.
34. There was conflict between my mother and me.
35. I (would have) cared for my mother personally if necessary.
36. My relationship with my mother overwhelmed me.
37. I should have behaved differently toward my mother.
38. My mother criticised me too much.
39. My mother and I had a lot to say to each other.
40. My relationship with my mother was a burden to me.
41. I felt estranged from my mother.

| 57. In what year did your mother pass away? | | | | | | |
| | | | | | | |

Results

Introduction

Tables

The largest part of this book offers the answers to the SwissGen questions. This introduction provides general information on tables, respondents and factors and is followed by the list of tables. These are presented in two sections. First, the responses to the personal questionnaire are documented, then the answers about the parents.

The tables are numbered and printed in the order of the questions in the questionnaires (see Figure 1). Thus, one can easily look up the exact wording of the questions in the previous chapter of this book. The numbering of the tables based on the personal questionnaire start with a “P”. If the parent is alive, the numbering of the corresponding tables presenting the information on living parents begins with an “A”. If the parent is deceased, it starts with “D”. The corresponding tables for living and deceased parents are printed on opposite pages, which allows for direct comparisons.

Information on living mothers and fathers is combined, as is information on deceased mothers and fathers. This corresponds to the procedure in the analysis volume (see the Overview of this book). The books complement one another. What is presented in figures in the analysis volume is backed up here with the exact corresponding numbers. The same procedure is applied in regard to respondents and variables accordingly (see below). Of course, the analysis volume can only present selected results and examine those more closely. The present volume, however, documents all responses to the questionnaires.

All percentages in these tables are row percentages. In general, they add up to 100 per cent – except for a few questions allowing multiple answers. The number of cases mentioned at the bottom of each table is unweighted. The percentages are weighted and thus provide information for the population and not just for the sample.

Respondents

The results of the personal questionnaire refer to all respondents. The results for relationships with living parents include only respondents with living mothers or fathers. Since SwissGen refers to intergenerational relations in Switzerland, the results do not include relationships where both generations lived outside of Switzerland at the time relevant to the survey. As in the analysis volume and in the right part of Table 7, the results on deceased parents therefore exclude cases in which the respondents migrated to Switzerland after the parent passed away. Also, since SwissGen focuses on adults, relationships are not considered if parents passed away before the respondent reached the age of majority (i.e., before they turned 18). However, adult children in Switzerland whose parents live abroad are included.

Factors

In addition to general responses to the survey questions, the following tables also consider several potential factors that may have influenced these responses. These factors represent individual opportunities and needs, family structures and societal contexts and are, again, treated identically here as they are in the analysis volume. They refer to education, finances, age, gender, migration and region, and they all relate to the respondents themselves at the time of the survey. The number of cases and percentages can be found in Table 6 and 7. The variables are operationalised as follows (see also the Appendix of the analysis volume):

“Education” refers to the respondent’s highest education and considers both school and vocational qualifications (Questions 6 and 7 of the personal questionnaire). Three educational classes are distinguished: “low”, “medium” and “high”, drawing on the International Standard Classification of Education (ISCED). The “low” category refers to education below the upper-secondary level (ISCED 0, 1, 2). Upper-secondary or post-secondary non-tertiary education (i.e., vocational training or higher education entrance qualification; ISCED 3, 4) are regarded as “medium”. Finally, educational attainment on ISCED level 5 or higher (i.e., tertiary education) falls into the “high” category.

The “Finances” variable is derived from Question 9 of the personal questionnaire: “At the present time, how well does your household fare financially,

if 0 signifies ‘very poorly’ and 10 signifies ‘very well?’” Here, the responses are summarised into five categories: “– –” (values 0–1), “–” (2–3), “o” (4–6), “+” (7–8), “+ +” (9–10).

The age groups are divided into respondents in their early adulthood (aged 18–29 years), middle adulthood (aged 30–59 years) and late adulthood (aged 60 years or older). When interpreting the results for young adults with deceased parents, one has to bear in mind that this specific group consists of only a few cases (see Table 7).

To capture gender differences, the tables presenting answers to the personal questionnaire distinguish between female and male respondents. Gender is also taken into account in regard to intergenerational relations, and the tables thus differentiate between daughter-mother, daughter-father, son-mother and son-father relationships.

Respondents are divided into three migration groups based on their country of birth (Question P3) and their parents’ country of birth (AD2). While foreign-born respondents are defined as “1st generation”, those who were born in Switzerland but have at least one parent who entered Switzerland as a migrant are regarded as “2nd generation”. In turn, Swiss-born respondents whose parents were both born in Switzerland form the “No migration” group.

Finally, potential regional differences are taken into account by differentiating between German, French and Italian Switzerland.

This book offers essential information on relations between adults and their parents. How well do the generations get along with one another? What kinds of support do adults provide to their parents, and how much do parents give to their adult children? How often does tension or conflict arise? What impact do education, finances, age, gender, migration and region have on intergenerational relationships? The study examines both current relationships with living parents and past ties to mothers and fathers who have passed away.

The empirical basis is SwissGen, a representative survey of intergenerational relations in Switzerland. This book forms a tandem with the analysis volume, which examines central generational issues in depth ("Generationen zwischen Konflikt und Zusammenhalt" / "Generations between Conflict and Cohesion"). The analysis volume offers key findings, whereas the volume at hand documents all questions and answers of the survey. This includes the numbers on which the figures in the analysis volume are based. Moreover, the data volume is a general reference book for all SwissGen results and provides basic information on the research project.

The study was conducted under the direction of Marc Szydlik at the Department of Sociology at the University of Zurich. The core research team consists of Ronny König, Bettina Isengard, Klaus Haberkern, Christoph Zanger, Tamara Bosshardt and Marc Szydlik.
